

INXS TO ROCK REGIONAL AUSTRALIA IN THE 2012 RED HOT SUMMER TOUR
WITH SPECIAL GUESTS VANESSA AMOROSI & JAMES REYNE

The Red Hot Summer Tour returns to regional Australia in January with its biggest line up to date, featuring INXS as you have never seen them before. One of the world's greatest rock bands ever, **INXS** will headline the tour with special guests Vanessa Amorosi and James Reyne.

The iconic INXS have had an extraordinary global career spanning more than three decades. They have sold over 35 million records, won numerous awards and have an outstanding reputation for live performances. INXS have recently unveiled Irish singer-songwriter Ciaran Gribbin as its new front man, Gribbin comes to INXS with a wealth of experience, having worked with Paul McCartney, Madonna, Paul Oakenfold, Snow Patrol and Groove Armada. Last year, he received a Grammy nomination for his co-write of Madonna's *Celebration*. Co-incidentally, he also wrote and produced the score for the film *Killing Bono*.

INXS are very proud to announce that **Vanessa Amorosi** will be joining them as they tour across Australia. **Vanessa Amorosi** is set to release her fifth studio album titled 'V', following the releases of her singles 'Gossip' and 'Amazing'. Having set records with platinum selling records, and being responsible for the longest running single on Australian radio, 'Perfect', Vanessa is back to show the country what she is admired and famed for, performing live. She will commence the INXS tour off the back of her national tour 'V' later this year.

Also joining the Red Hot Summer Tour in 2012 is one of Australia's favourite sons, **James Reyne**. James has become one of the country's most loved singer songwriters. James led the seminal Australian Crawl to the top of the Australian music scene and followed this with a platinum lined solo career, releasing nine solo albums to date.

As The Red Hot Summer Tour enters its fourth year, it continues to strengthen as a first class experience, bringing Australia's best entertainers to regional areas. 2012 will be no different, as we unleash our biggest line up to date.
